

# SHARP-AX - THE BEST SOFTWARE FOR WHOLESALERS

One stop/long term solution and the last software you will ever need for integrated accounting, order processing, stock control and website systems.

The Sharp-aX software is flexible, powerful and user friendly. We keep complexity behind the scenes.

It is built to be the heart of your business bringing together all the information your business needs in one place.

If your business uses other specialist software, our experienced team will ensure that the specialist software will be tightly integrated as if it were a part of Sharp-aX.

## Save Time/Increase Efficiency = Return on Investment

Easy to use tools for staff to record key business data, keep everyone up to date and share knowledge with your colleagues quickly and easily. Enter once for access by all.

## Pro-active Marketing

Use the system information to accurately target your marketing campaigns and follow up directly from within our software. Powered by the world leading Google Analytics.

## Flexible Nominal Accounting

Produce and reconcile your own management accounts – display on one screen. Save thousands of pounds by providing your accountants with instant and accurate information on request.

## Servers and Cloud services (Azure)

We have all options for on premise or Cloud solutions.

## Coupled with a fully integrated website

There is only one customer and stock file to maintain. Customers may see their sales history for ease of re-ordering and check their own pricing structure. Place orders online 24/7 which will automatically appear in the Sharp-aX system for processing. Your customers may download invoices, statements and pay their accounts.

## Sharp-aX is based in Berkhamsted, Hertfordshire

Employing local people in modern large airy offices with excellent access to the M1 and M25. We are uniquely positioned in the ERP software development market to offer a powerful combination of modern approaches to software combined with a tradition of expertise in delivering support to B2B SMEs in the wholesale and distribution industries.

## We use only Powerful and Proven Technologies

Our software, written in C# runs in a Windows environment using .Net and DevExpress frameworks in conjunction with an MS-SQL backend. These are the powerful and proven technologies used by some of the world's largest companies ensuring that your business is supplied with Proven reliable software suitable for your needs.

## The Paperless Office

Save space with our policy of "no data archiving". No need for paper records – the system will hold all information safely and securely for as long as required.

## Customer Service

Your knowledge and that of your most experienced staff is held in the system to ensure everyone makes the same well informed decision for your customers.

## Product on Screen Images

Don't rush to the warehouse to find a product. Show your customers an on screen coloured image or send them a quotation with an image.

## Automate Your Processes

Produce and print delivery notes and invoices when orders are picked and ready to go. Email invoice and statements, purchase orders +++
